INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders
Zero One Technology Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Zero One Technology Co., Ltd and its subsidiaries (the “Group”) as of June 30, 2026 and 2025, the related consolidated statements of comprehensive income for the three months then ended June 30, 2026 and 2025 and for the six months then ended June 30, 2026 and 2025, the consolidated statement of changes in equity and cash flows for the six months then ended June 30, 2026 and 2025, and the related notes to the consolidated financial statements, including material accounting policy information (collectively referred to as the “consolidated financial statements”). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, “Interim Financial Reporting,” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Standards on Review Engagements of the Republic of China 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of June 30, 2026 and 2025, its consolidated financial performance for the three months then ended June 30, 2026 and 2025, and its consolidated financial performance and its consolidated cash flows for the six months then ended June 30, 2026 and 2025, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34 “Interim Financial Reporting” endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

The engagement partners on the review resulting in this independent auditors' report are Cheng-Hsiu Chang and Pei-De Chen.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Statement of compliance

These interim consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" as endorsed and issued into effect by the FSC. Disclosure information included in these interim consolidated financial statements is less than the disclosure information required in a complete set of annual consolidated financial statements.

(2) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments which are measured at fair values, and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- A. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- B. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- C. Level 3 inputs are unobservable inputs for the asset or liability.

(3) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and the entities controlled by the Company (i.e., its subsidiaries). When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated in full upon consolidation. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

For detailed information on subsidiaries including percentages of ownership and main businesses and share ratios, please see Note 13, Table 7 and Table 8.

(4) Other significant accounting policies

Except for the following, please refer to the summary on other material accounting policies of the consolidated financial statements for the year ended December 31, 2025.

A. Retirement benefits

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant plan amendments, settlements, or other significant one-off events.

B. Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax. Interim period income taxes are assessed on an annual basis and calculated by applying to an interim period's pre-tax income the tax rate that would be applicable to expected total annual earnings.

5. MATERIAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION AND UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimations and assumptions on the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

Based on the assessment of the Group's management, the accounting policies, estimations, and assumptions adopted by the Group have not been subject to material estimations and assumptions uncertainty.

Material Accounting Judgments

Control over subsidiaries

As disclosed in Note 13, although the Group has obtained less than half of equity of Unicom Information Co., Ltd., the management of the Group has obtained more than half of the director seats of Unicom Information Co., Ltd., as well as written agreements of other major shareholders, and is capable of exercising more than half of the voting rights; therefore, the management of the Group assesses that it has the substantial capacity of control over related activities of Unicom Information Co., Ltd., and thus, has control over the company.

The investments in debt instruments of the Group are mainly financial assets at amortized cost.

The strategy that the Group adopts is to invest in debt instruments that are rated as investment grade or higher and have low credit risk for the purpose of impairment assessment. The credit rating information is provided by external independent agencies. The Group consistently monitors changes in the credit risks of the invested debt instruments by tracking ratings and relevant information, and reviews the yield curve of bonds, material information of the bond-issuers, etc., so as to evaluate if there is a significant increase in the debt instruments since initial recognition.

The Group assesses the information of investment risk provided by external rating agencies and evaluates the 12-month expected credit loss or lifetime expected credit loss.

	<u>\$ 7,506,369</u>	<u>\$ 5,647,590</u>	<u>\$ 5,865,536</u>

Long-term notes and trade receivable mainly arose from installment sales.

The average credit period of sales of goods of the Group was 60-90 days. In order to minimize credit risk, the Group's management has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue receivables. In addition, the Group reviews the recoverable amount of each individual trade receivable at the end of the reporting period to ensure that adequate allowance is made for possible irrecoverable amounts. In this regard, the Group's management believes the Group's credit risk was significantly reduced.

The Group applies the simplified approach to providing for expected credit losses which permits the use of lifetime expected loss provision for all trade receivables. The expected credit losses of trade receivable on durable are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's past experience of receivable and current financial position, expectation of GDP and prospect of the industry, deciding the rate of the expected credit losses by the different levels of credit limits of customers and actual conditions, based on the degree of doubtful accounts triggered by customers of different industries.

The Group writes off an account receivable when there is information indicating that the respective debtor is experiencing severe financial difficulty and there is no realistic prospect of recovery of the receivable. For accounts receivable that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables which are due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of receivables:

D. Valuation techniques and inputs applied for Level 3 fair value measurement.

Fund beneficiary certificates and limited partnership investment are an asset-based method that estimates the fair value of individual assets covered by the valuation and evaluation targets, and the total market value of individual liabilities.

Domestic unlisted stocks are based on the market method, which is mainly calculated by referring to the relevant information of listed companies or those with similar industrial nature and taking into account of their liquidity discounts.

(4) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk based on related protocols and internal control procedures. The Group's financial department measures the aforementioned risks based on the Group's risk appetite, and reports to the board of directors for carrying out relevant policies at any time.

A. Market risk

The Group's activities exposed it primarily to the financial risks of changes in foreign currency exchange rates.

a. Foreign currency risk

The Group's purchases are denominated in foreign currencies. Consequently, the Group is exposed to foreign currency risks. The Group manages its exposure to such risks by investing in foreign currencies and entering into forward exchange contracts within the scope permitted by its policies.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities of non-functional currency calculated (including those eliminated on consolidation) at the end of the reporting period are set out in Note 31.

Sensitivity analysis

The Group's exchange rate exposure was in the exchange rate of U.S. dollars.

The sensitivity analysis included only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% change in foreign currency rates. If the New Taiwan dollar appreciates 5% against the relevant foreign currency, the Group's net profit for the six months ended June 30, 2026 and 2025 would increase by \$62,977 thousand and \$38,944 thousand, respectively.

b. Interest rate risk

The carrying amount of the Group's financial assets and financial liabilities with exposure to risks of interest rates at the end of the reporting period were as follows:

	June 30, 2026	December 31, 2025	June 30, 2025
Interest rate risks at fair value			
— Financial assets	\$ 3,003,506	\$ 3,448,100	\$ 2,881,807
— Financial liabilities	3,322,532	1,805,385	1,812,445
Interest rate risks at cash flows			
— Financial assets	2,134,035	1,938,488	1,592,448

Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rates for non-derivative instruments at the end of the reporting period.

If interest rates had been 50 basis points higher and all other variables were held constant, the Group's pre-tax profit for the six months ended June 30, 2026 and 2025 would increase by \$5,335 thousand and \$3,981 thousand, respectively.

c. Other price risk

The Group is exposed to price risks arising from investments of public offering securities, corporate bonds and fund beneficiary certificates. The investments should be approved by the management, for controlling risks by holding different investment portfolios.

Sensitivity analysis

The following sensitivity analysis is based on risk exposure of equity prices at the end of the reporting period.

If the prices of the equity investments had been 5% higher, pre-tax profit for the six months ended June 30, 2026 and 2025 would have increased by \$14,806 thousand and \$12,187 thousand, respectively, as a result of the changes in fair value of financial assets at FVTPL, and the other comprehensive income for the six months ended June 30, 2026 and 2025 would have increased by \$16,573 thousand and \$17,745 thousand, respectively, as a result of the changes in fair value of financial assets at FVTOCI.

B. Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. As at the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognized financial assets as stated in the consolidated balance sheets.

The Group adopted a policy of only dealing with creditworthy counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the financial department regularly.

To decrease a credit risk, the key management personnel of the Group is responsible for decision of rating criteria, credit limits approval, and other censor procedure, etc., in order to collect delinquent trade receivable. Otherwise, the Group reviews each trade receivable to assure allowance of impairment losses of uncollectable bad debts, hence the key management personnel consider credit concentration risk of trade receivable is insignificant.

The credit concentration risk of the current fund is insignificant, since the Group only transacts with financial institutions with good rating.

Trade receivable consisted of a large number of customers. Ongoing credit evaluation is performed on the financial condition of certain customer's trade receivable. If necessary, purchasing insurance for credit enhancing procedures is a must.

The credit risk of the Group concentrates on top 5 customers of the Group. As of June 30, 2026, December 31, 2025 and June 30, 2025, the Group's five largest customers accounted all for 43%, 34% and 37% of trade receivable, respectively.

C. Liquidity risk

The Group manages and maintains sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises financing line of the banking facilities and ensures compliance with the terms of loan agreements.

Liquidity & interest rate risk table

The table below summarizes the due analysis of the maturity profile of the Group's non-derivative financial liabilities, enacted by contractual undiscounted payments of cash flow of financial liabilities, according to remaining contracts on the earliest date on which the Group may be required to pay, including interest and principal of cash flows.

The other non-derivative financial liabilities are listed at their contract repayment dates.
